

10MWh Cambodian power distribution and energy storage cabinet for mountainous areas

Overview

What is Cambodia's power development master plan 2022-2040?

In its Power Development Master Plan (PDP) 2022-2040, Cambodia announced that there would no more investment of coal power plants after 2024, and renewable energy (domestic and imported) would play a significant role towards Cambodia's transition to clean energy.

How much energy will Cambodia invest in 2024-2029?

The RGC approved on Sept. 23 last year power investment projects worth in total US\$5.79 billion for 2024-2029, aiming at addressing the energy shortage. The projects will increase Cambodia's share of clean energy generation capacity to 70 percent by 2030 from more than 62 percent at present, according to the ministry. Source: akp.gov.kh.

How much power does Cambodia have in 2023?

As of 2023, Cambodia's total installed capacity stood at 4,945 megawatts (MW), sourced from a combination of: The government has pledged to cease new coal power plant investments after 2024 and prioritize renewable energy, aligning with its Power Development Master Plan (PDP) 2022-2040.

Will Cambodia stop coal power plant investments after 2024?

The government has pledged to cease new coal power plant investments after 2024 and prioritize renewable energy, aligning with its Power Development Master Plan (PDP) 2022-2040. In March 2023, Cambodia launched the Principles for Permitting the Use of Rooftop Solar Power, ensuring transparency and accountability in solar energy adoption. FACT
