

120kW Battery Storage Cabinet for French Field Operations

Overview

Who is delivering a battery energy storage system in France?

China's Envision Energy has been selected by Kallista Energy to deliver a 120 MW/240 MWh battery energy storage system (BESS) in Saleux, northern France. The project represents Envision's first independent storage contract in the French market and signals its continued European expansion.

Where will Envision Energy deliver a 120 mw/240 MWh battery energy storage system?

Envision Energy has signed its first independent energy storage contract in France, under which it will deliver a 120 MW/240 MWh turnkey project in Saleux for Kallista Energy. China's Envision Energy has been selected by Kallista Energy to deliver a 120 MW/240 MWh battery energy storage system (BESS) in Saleux, northern France.

Who is supplying LFP battery cells?

As the key component of the BESS project, the LFP battery cells will be supplied by AESC - a leading battery technology company headquartered in Japan. AESC has a state-of-the-art 10 GWh Gigafactory, located in Douai in the Hauts-de-France region in production since June 2025.

Who will supply a 10 GWh Gigafactory battery?

The battery cells will be supplied by AESC, a Japanese-headquartered battery manufacturer. AESC's recently launched 10 GWh Gigafactory in Douai, located in the same Hauts-de-France region, began production in June 2025 and will provide localized supply for the Saleux project.

120kW Battery Storage Cabinet for French Field Operations
