

# 150kW Energy Storage Unit for Expressways in the Saudi Arabia

## Overview

---

What is the largest energy storage program in Saudi Arabia?

7.8GWh! World's Largest Energy Storage Program Signed in Saudi Arabia - PVTIME  
1.75GW! PowerChina Wins EPC Contract for PV Project in Saudi Arabia 7.8GWh!  
World's Largest Energy Storage Program Signed in Saudi Arabia.

Is Saudi Arabia a leader in battery energy storage?

Riyadh, February 14, 2025, SPA -- The Kingdom of Saudi Arabia has achieved a leading position among the top ten global markets in the field of battery energy storage, coinciding with the launch of the Bisha Project, which has a capacity of 2000 MWh and is one of the largest energy storage projects in the Middle East and Africa.

Which country has a 2 GWh battery energy storage system?

The 2 GWh battery energy storage system (BESS) features 122 prefabricated storage units, designed and supplied by China's BYD. Saudi Arabia has officially connected its largest battery energy storage system (BESS) to the grid, marking a significant milestone in the country's renewable energy expansion.

Why is energy storage important in Saudi Arabia?

Energy storage is a vital component of this transition, providing grid flexibility and enabling the integration of intermittent power sources such as solar and wind. The project is among several large-scale battery storage initiatives being developed in Saudi Arabia.
