

150kW French lead-acid battery cabinet

Overview

What is a battery cabinet / rack?

EverExceed designs customized battery cabinets / racks for individual batteries. The cabinet or racking system can be specified to accommodate any battery cell. From flooded to sealed, from lead acid to nickel cadmium and from vertical to horizontal all kinds of battery cabinet / rack can be designed flexibly to save the space in battery room.

What is a VRLA battery assembly cabinet?

EverExceed VRLA battery assembly cabinets are very durable, and easy to install. Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of applications. This solution is completely customizable and flexible to support your application requirement.

How many modules are in a 150 kWh battery?

The 150 kWh battery consists of 30 modules of 5kWh lithium iron phosphate battery, or it can be designed to consist of 15 modules of 10kWh, depending on whether you have requirements for the battery voltage, charging and discharging current. The battery cabinet is made of hard metal. Inside, there is a choice between air-cooling and water-cooling.

Which accumulator batteries are included in the cabinets covered by the technical specification?

The cabinets covered by the technical specification have been designed to contain the hermetic lead-acid electric accumulator batteries.
