By handling all system integration details, including: If you have a System Integration need [click here](#) and let us know how we can help. Right sized for your application, 5-42 RU cabinet.

Why use a indoor hydroponic grow cabinet?

The main reason grow boxes and cabinets have explode in popularity is due to the stealth and control they provide growers. Many of these boxes blend in as normal house furniture. Or look like a typical cabinet. They have locks on them, preventing any.

Unlike generic enclosures, our integrated design includes all the power distribution, protection, and control elements required for safe, dependable operation and future expandability. Delivered as a pre-engineered system, saves days or weeks of setup time. Configurable for single, split, or.
