

24v solar air conditioner in barcelona spain

Overview

Should you install air conditioning in Spain?

Summers in Spain can be extremely hot, and the high temperatures can take a lot of getting used to for expats, particularly those from cooler countries such as the UK. If you are considering installing air conditioning in Spain, knowing the types of systems available, their costs, and the latest regulations is essential.

What are the different types of air conditioning systems in Spain?

Split Systems: Popular in both homes and businesses. Split AC units consist of an indoor and outdoor unit, perfect for cooling individual rooms or small spaces.

Ducted Air Conditioning: Ideal for cooling entire homes or buildings, especially in larger spaces. **Gas Heating:** Widely used in Spain, especially in regions with easy access to natural gas.

Should you buy a property in Spain with air conditioning?

If you're considering buying a property in Spain, air conditioning is an important factor to keep in mind.
