

250kw energy storage solution

Battery String-S224

- 1C Charge/Discharge
- Easy configuration and maintenance
- Power supply can be single battery string or parallel battery strings

Overview

As a standardized “energy package,” each container provides 250kW/430kWh, and up to five units can be paralleled, enabling capacity expansion from 100–1000kW / 200–2000kWh. This containerized ESS supports peak shaving, backup power, electricity cost reduction, and power.

A complete mid-node battery energy storage system (BESS) with everything you need included in one container - Our 250 kW/575 kWh battery solutions are used across a wide variety of sectors to increase flexibility, reduce emissions, and control costs. BESS is a fast way to move away from excessive.

Product Range: 250kW/430kWh per module — scalable up to 1.25MW/2.15MWh (5 units in parallel) or fully customized. Design: Compact 10ft all-in-one air-cooled BESS for small to medium commercial and industrial applications. This modular 10ft all-in-one commercial ESS is designed to make energy.

A powerful and scalable 250kW three-phase solar energy solution with 631kWh lithium battery storage, combining high-efficiency solar panels, hybrid inverter, EMS, and smart control system. Perfect for commercial rooftops, factories, and off-grid industrial projects. This 250kW solar + 631kWh energy.

The BSI-Container-20FT-250KW-860kWh is a robust, turnkey industrial energy storage solution engineered for rapid deployment and high-density energy performance. Housed in a 20-foot container, this system integrates solar PV, energy storage, and advanced control components into a single unit, making.

The Bluesun 20-foot BESS Container is a powerful energy storage solution featuring battery status monitoring, event logging, dynamic balancing, and advanced protection systems. It also includes automatic fire detection and alarm systems, ensuring safe and efficient energy management. The 20FT.
