

30kwh off-grid bess cabinet used in south african metro stations

Overview

How can Bess help South Africa reduce reliance on coal-fired power stations?

One of South Africa's key goals is to reduce its reliance on coal-fired power stations. BESS supports this transition by making renewable energy sources more efficient and dependable, ultimately leading to a greener and more sustainable future.

Is South Africa's energy grid under pressure?

As Jason Fairhurst, one of our Senior Managers, stated: "South Africa's grid is under pressure. And as more renewable energy is added, it's essential to manage the timing of energy dispatch to ensure stability and optimal use."

What is the largest Bess project in South Africa?

Scatec's Kenhardt BESS project, the largest online in South Africa. Image: Scatec. The government of South Africa has secured nearly 1.7GW/11GWh of grid-scale BESS capacity via various procurement programmes, though questions have been raised around their integrity and deliverability.

How much Bess capacity has South Africa secured?

South Africa has secured nearly 1.7GW/11GWh of grid-scale BESS capacity via various procurement programmes.
