

500kw energy storage cabinet for subway stations

Overview

What is A 500KW Megatron battery storage system?

500kW MEGATRON - 20 foot Containerized Commercial Battery Energy Storage System designed to for On-Grid and Renewable Energy Projects.

How many kWh can a 20feet container hold?

All components for battery storage, system operation and grid connection is pre-assembled for a plug and play use. It can meet the battery storage requirements up to 1013kWh in one 20feet container. Suitable for various applications such as peak shaving, frequency regulation, EV Charging, Solar + Storage, Micro-Grid.

What voltages are available for a battery energy storage system?

All system systems are offered with either 400VAC or 480VAC 3 phase interconnect voltages. Each commercial and industrial battery energy storage system includes Lithium Iron Phosphate (LiFePO₄) battery packs connected in high voltage DC configurations.
