This is a 500KW small-scale commercial and industrial energy storage system. It can store electricity through photovoltaic, diesel generators, and other means, with off-grid design. It can quickly switch to UPS mode during power outages. It supports peak shaving and valley filling applications, as.

The Bluesun 40-foot BESS Container is a powerful energy storage solution featuring battery status monitoring, event logging, dynamic balancing, and advanced protection systems. It also includes automatic fire detection and alarm systems, ensuring safe and efficient energy management. The BESS.

500kW power output with modular design, supporting expansion up to 1.5MWh (customizable based on your product specs). Seamless integration with existing inverters for hybrid energy systems. 95%+ round-trip efficiency, reducing energy loss and maximizing ROI. Bidirectional PCS (Power Conversion).

Lithium Battery and GEL storage battery compatible with almost all types of inverters; Comprehensive WIFI monitor for electricity production and consumption data, to check your investment payment on time; Lithium and GEL Storage Batteries Optional; 100Ah/150Ah/200Ah, with 100kwh/300kwh/500kwh.

Cutting-edge, fully integrated, 3-phase 480V battery energy storage system with EMS. Optional equipment includes microgrid controller and automatic transfer switch. Designed to support time-of-use (TOU) arbitrage, demand charge management, microgrid, PV self-consumption, resiliency, and more.

Individual pricing for large scale projects and wholesale demands is available. This product is a kind of energy storage equipment developed mainly for users with their need to long-time uninterruptible power supply, for example, families, villas, large hotels, shops, schools, hospitals, and.
