

# ASEAN 10 Countries Data Center Rack 2MWh Member Price

## BASIC APPLICATION

Storage systems have been proven to be "extremely lucrative" for commercial and industrial (C&I) fields.

## Overview

---

How many data centres does ASEAN have?

Including assets in the REIT, it has 32 data centres in 10 countries with more than 2m sq. ft. of net leasable area. Apart from its listed REIT, it has two private funds exposed to data centres. The sponsor in ASEAN owns data centres in Johor in Malaysia, Bogor in Greater Jakarta and two data centres in Singapore.

What is the Asia Pacific Data Centre Price tracker?

The Asia Pacific Data Centre Price Tracker provides average pricing information (rack space, m2 rentals and kW rentals), Data Centre space, Data Centre Customer Power (DCCP), the key geographical clusters and new build Data Centre facilities across 7 Country Markets.

Will ASEAN become a hub for data centres?

Beyond data centre demand for its own need, we see potential for ASEAN to emerge as a hub for meeting broader Asian/global data centre needs. ASEAN is emerging as a favourable destination for data centres and subsea cable builds owing to its neutral geopolitical stance and US-China trade tensions.

How high are data centre Vacancies in ASEAN markets?

Key ASEAN market DC vacancies look high on the surface. Data centre vacancies in markets such as Jakarta, Manila and Ho Chi Minh look high at 34-55%. However, we note that those markets are still relatively small in the ASEAN context and had seen a step supply increase in 2023, which we think will be absorbed with a lag.
