

# ASEAN Ten Countries Modular Energy Storage Cabinet 500kW Project Proposal

## Overview

---

Does ASEAN have a policy for promoting battery energy storage?

According to the ASEAN Centre for Energy (ACE) Policy Brief: Enabling Policies for Promoting Battery Energy Storage in ASEAN, only a few AMS have related policies. For instance, Thailand's Ministry of Energy presented its 'Energy 4.0' strategy by integrating disruptive energy technologies such as energy storage systems.

Does ASEAN need energy storage?

Determinedly, the region has set the targets of 23 per cent renewable energy share in Total Primary Energy Supply (TPES), and 35 per cent share of renewable energy in ASEAN installed power capacity by 2025. This means that energy storage is required. What Is The Status Quo?

How does ASEAN contribute to energy security and sustainability?

Diverse Energy Resources: ASEAN possesses a wide range of energy sources, from fossil fuels to renewables, but unevenly distributed across countries. Need for Regional Cooperation: Energy security and sustainability necessitate integrated planning and interconnection among ASEAN member states.

How can APG improve ASEAN's Energy Economy?

Cross-border energy trading via APG can add billions to ASEAN's GDP by improving energy efficiency and lowering costs. The APG facilitates large-scale investment in energy infrastructure, with multilateral banks and private sectors as key players.
