

# Abu Dhabi outdoor telecom cabinet 30kw agreement

## Overview

---

Who regulates the telecommunications sector in the UAE?

TDRA is the statutory body responsible for the regulation of the Telecommunications Sector in the UAE. TDRA regulates the sector according to its mandate: the Telecommunications Law – Federal Law by Decree No. (3) of 2003 Regarding the Organization of Telecommunications and its amendments and according to State Policy.

Do you need a telecommunications license in UAE?

According to the Telecommunications Law, any sale, provision or operation of a Telecommunication Service requires a Telecommunications License. In some cases, such services may be provided through an agreement with an existing UAE licensed operator.

What are the requirements for a telecom room in UAE?

All penetrations and openings to telecom rooms shall be protected or fire-stopped in accordance with Section 2 and Section 3, Ch. 1 of UAE FLSC [Ref. G.2]. All ducts directly entering a telecom room shall be water- sealed and gas-sealed.

How to get a building permission for a telecom infrastructure project?

Based on the construction drawings the professional implementation of the in-building design manual will be assessed and the NOC issued. This forms the basis to obtain a building permission for the project (covering the part of the telecom infrastructure).
