

Application of smart solar energy system in new york usa

Overview

What is nysolar smart?

NYSolar Smart is a comprehensive strategic plan implemented by Sustainable CUNY designed to reduce the soft costs of going solar in New York.

What is the New York State Solar Program (NY-Sun)?

The New York State Solar Program (NY-Sun) is a program that offers incentives to homeowners. Some of these incentives include Affordable Solar for households earning less than 80% of the median income in an area. Additionally, there are several financing options available, such as loans for On-Bill Recovery and Smart Energy.

What services does NY State Solar offer?

NY State Solar offers custom solar solutions tailored to each homeowner's unique energy needs. They help homeowners save on their energy bills with their solar systems.

Is solar a good investment in New York State?

New York State is making solar energy more accessible to homes, businesses, and communities through NY-Sun incentives and a network of qualified installers. Combined with declining equipment costs, New York State tax credits, and Inflation Reduction Act tax credits for commercial solar, going solar is a great option.
