

Australia sydney electric three-point solar battery cabinet lithium battery pack

Overview

Are MPS batteries made in Australia?

Seeking to provide superior performance and reliability, MPS began manufacturing its own lithium battery solutions in 2019. Their Australian-made battery range includes: The flagship MPS 48-5.1 battery module represents the pinnacle of their advancements, offering outstanding performance tailored to Australia's challenging conditions.

Does Australia have a solar battery rebate?

As of 1 July 2025, Australian households can access the Federal Solar Battery Rebate through the Cheaper Home Batteries Program, helping reduce the upfront cost of solar storage systems like the SIGENERGY SigenStor.

Why do Australians need a battery system?

Batteries let Australians use rooftop solar after sunset, cut peak tariffs, and ride through blackouts. For homes on three-phase supply—common where there's ducted air-conditioning, EV chargers, or workshop machinery—the battery decision is different. A compliant system must juggle three live
