

Black mountain household energy storage solar energy storage cabinet lithium battery

Overview

Who is Black Mountain Energy Storage?

Leveraging cumulative decades of electric market experience, Black Mountain Energy Storage develops powerful, flexible, and strategically placed battery energy storage projects to foster a resilient electric grid. BMES' quickly expanding team of energy experts are fast actors in pipeline development of utility-scale energy storage solutions.

Who is Black Mountain Energy?

Black Mountain Energy is an entrepreneurial upstream oil and gas company with deep experience sourcing, developing, and operating properties in hydrocarbon-rich basins. Black Mountain Energy is focused on development of international oil and gas, led by a team of highly experienced upstream oil and gas professionals.

What makes Black Mountain a great partner?

Black Mountain has been an exceptional partner to work with and we are excited to throw our development, EPC and financing expertise behind these assets to move them across the finish line, affirming our commitment to developing resilient renewable energy resources throughout Texas.

What is a home energy storage system?

Home energy storage systems are designed to store excess energy generated from renewable sources like solar panels. Lithium-ion batteries, particularly the LFP type, are ideal for residential applications due to their: High safety standards. Long lifespan, ensuring decades of reliable performance.
