The air cooling battery cabinet is a distributed energy storage system for industrial

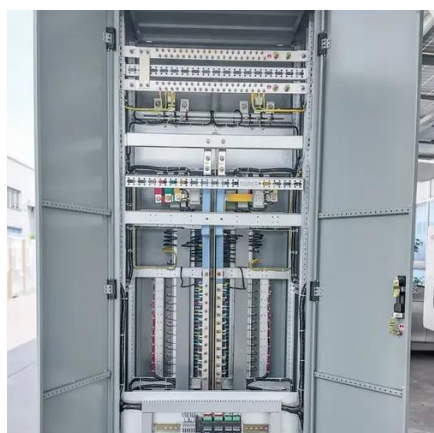

and commercial applications. It can store electricity converted from solar, wind and other renewable energy sources. With air cooling technology, it is cost-effective and easy to maintain and repair. Max. PV input.

HBOWA PV energy storage systems offer multiple power and capacity options, with standard models available in 20KW 50KWh, 30KW 60KWh, and 50KW 107KWh configurations. You can add many battery modules according to your actual needs for customization. This energy storage cabinet is a PV energy storage.
