

# Customer support for 600kw outdoor telecom enclosure for water plants

## Overview

---

What is an outdoor telecommunication enclosure?

Damage-resistant and reliable outdoor enclosures are key for outdoor telecommunication applications from cell tower sites and fiber optic networks to substations. These specialized cabinets house and protect sensitive equipment like routers, switches, and other network devices.

What is a Purcell system outside plant enclosure?

Purcell Systems outside plant enclosures accommodate WiMAX wireless radios in durable equipment enclosures with options for surge protection, battery backup, power management, and complete climate control, for equipment deployments in indoor and outdoor environments.

Why should you choose Shield for your outdoor telecom enclosure?

This solution is also ideal for rapid deployment at the network edge. SHIELD offers a wide range of customization features for your outdoor telecom enclosures such as machining, special dimensions, custom colors, and additional protection for harsh environment.

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

## Customer support for 600kw outdoor telecom enclosure for water pla

### [Wireless Telecommunications Outside Plant Enclosures](#)

Purcell Systems responds with highly configurable, thermally managed outdoor rack enclosure solutions that address all power, thermal, acoustic, cabling, and quality requirements.

### [Outdoor Telecom Enclosure , Telecommunication Cabinets](#)

An outdoor telecom enclosure is extremely important for fibers and their ability to access a net of FTTH, FTTB, and FTTC programs. The fiber access method is customizable as per customer ...
