

# Customization Process for a 150kW Data Center Rack in Canada

## Overview

---

Despite having the ability to customize with a rack builder, it's crucial to understand the unique dynamics of each data center. Our server rack configurator offers an extensive selection of acce.

How do I design a data centre rack?

introducing the Dataracks Rack Configurator – the ideal tool for designing your perfect data centre rack. Choose your preferred height, depth, width, and other specifications to create a fully customised rack tailored to your exact needs. With just one click, send your design directly to our sales team for a detailed quote.

Why should you choose Supermicro rack integration services?

As your trusted partner, Supermicro can directly manufacture, integrate and deliver high-quality, cost-effective, customized solutions using proven 'industry-best' practices. Supermicro Rack Integration Services are your trusted resources for data center solution success!.

How do I design a racking system?

Design your racking system in a few quick and easy steps. Choose a cabinet size (H x W x D), and the image adjusts to your specifications. Continue by adding available accessories. Specify exact RU locations for your rack accessories for maximum design flexibility. Add notes to the data or server rack configuration as required.

How do I get a custom rack design?

Step 1: Fill out your rack requirements, including height, depth, width, and other specifications. Step 2: If you have a custom design, complete the custom form with your specific details. Step 3: Click “Get Quote” to review your design and ensure everything is correct. Step 4: Double-check your email details, and once confirmed, send it to us.
