

Discount on IP67 Communication Power Supply Racks for Data Centers

Voltage range: 691.2-947.2V

>6000 cycles (100%DOD)

Rated battery capacity:
216KWH (customizable)

EMS communication:
4G/CAN/RS485

Overview

What is an IP67 power supply?

Phoenix Contact's IP67 power supplies give engineers flexibility to design applications to meet their specific needs by replacing power supplies located in large, centralized control cabinets with power supplies mounted directly on the machine.

What are the benefits of a trio IP67 power supply?

The TRIO IP67 power supplies reduce or eliminate the need for a separate control enclosure which reduces overall system cost. Mounting the IP67 power supply on or closer to where power is needed reduces cable length and voltage drop that can occur with longer cables.

What accessories are available for data communication rack systems?

Miscellaneous accessories for data communication rack systems are available for finishing a quality installation, including rack depth label and hook-and-loop tie straps. AutomationDirect offers quality data communication racks and accessories from Hammond Manufacturing, one of the top enclosure manufacturers in the US.

Who makes voice & data communication cabinets & racks?

When it comes to Voice & Data Communication Cabinets & Racks, you can count on Grainger. Supplies and solutions for every industry, plus easy ordering, fast delivery and 24/7 customer support.
