Safeguard your facility with fire-resistant storage cabinets. Discover options with insulated air space, adjustable shelves, and spill-containment capabilities.

Protect your facility from the growing risks of lithium-ion battery fires with our specialized storage and charging cabinets. Engineered with fire-resistant construction, automatic door closure, and integrated ventilation, these cabinets are designed to contain thermal runaway and prevent fire.

Our energy storage cabinet, a 4th-generation innovation from 16 years of industry leadership, is tailored to industrial and commercial needs. It excels in peak shaving, virtual power plant participation, backup power provision, and three-

phase unbalance management, offering customized overall.

DENIOS' cutting-edge battery charger cabinets, integrated within our Lithium-Ion Energy Storage Cabinet lineup, guarantee secure and fire-resistant containment during battery charging processes. Constructed from powder-coated sheet steel, they incorporate a tested, liquid-tight spill sump to manage.
