

Emergency Rescue Use of Indonesia Network Cabinet 400V

Overview

Can Indonesia become a hub for Emergency Rescue Vehicle Innovation?

This shift toward fully digitized vehicle response aims to minimize reaction time during life-threatening situations. With input from global leaders in the disaster industry, such as BASARNAS and international players, the expo revealed the potential for Indonesia to become a hub for emergency rescue vehicle innovation.

What is Emergency Disaster Reduction & rescue (EDRR) Indonesia?

Emergency Disaster Reduction & Rescue (EDRR) Indonesia will deliver International large-scale event focusing on all aspects of disaster response and emergency preparedness.

How Indonesia is reshaping its disaster management framework?

This development is central to reshaping Indonesia's disaster management framework. Cutting-edge solutions included flood rescue ships, high-performance helicopters, and multi-functional emergency rescue trucks.

What tools do Disaster Response Teams need in Indonesia?

To avoid similar setbacks, local disaster response teams and humanitarian organizations require reliable, portable, and durable tools—such as first response backpacks, field tents, and rapid deployment kits—that are tailored to Indonesia's challenging terrains.

Emergency Rescue Use of Indonesia Network Cabinet 400V

OVERVIEW

12.8V6Ah

Nominal voltage (V):12.8
Nominal capacity (Ah):6
Rated energy (Wh):76.8
Maximum charging voltage (V):14.6
Maximum charging current (A):6
Floating charge voltage (V):13.6-13.8
Maximum continuous discharge current (A):10
Maximum peak discharge current @10 seconds (A):20
Maximum load power (W):100
Discharge cut-off voltage (V):10.8
Charging temperature (°C):-50
Discharge temperature (°C):-20-+60
Working humidity: <95% R.H (non condensing)
Number of cycles (25 °C, 0.5c, 100%doD): >2000
Cell combination mode: 32700-4s1p
Terminal specification: T2 (6.3mm)
Protection grade: IP65
Overall dimension (mm):50*70*107mm
Reference weight (kg):0.7
Certification: un38.3/msds
