Energy Storage Is Powering New York's Clean Energy Transition  
Energy Storage Safety  
An Expanded Goal of 6 Gigawatts by 2030  
In 2019, New York passed the nation-leading Climate Leadership and Community Protection Act (Climate Act), which codified some of the most aggressive energy and climate goals in the country, including 1,500 MW of energy storage by 2025 and 3,000 MW by 2030. In June 2024, New York's Public Service Commission expanded the goal to 6,000 MW by 2030. See more on [nysed.ny.gov](https://nysed.ny.gov)
