

European Data Center Rack 25kW

Overview

What is the Europe data center rack market?

The Europe Data Center Rack Market is Segmented by Rack Size (Quarter Rack, Half Rack, and Full Rack), End-User Industry (BFSI, IT, Telecom, Government, Media, and Entertainment), and Country. The Market Sizes and Forecasts are Provided in Terms of Volume (units) for all the Above Segments. Want to share this?

What is SmarTrack® modular data center?

This SmartRack® Modular Data Center is composed of IT rack and cooling enclosures that form a performance optimized data center (POD). This solution reduces deployment time, lowers cost and simplifies the process of launching a new data center.

What is a data center cooling enclosure?

Together, the IT rack enclosures and the data center cooling enclosures form an efficient closed-loop cooling system. POD enclosures protect equipment from physical and environmental conditions found in factories, warehouses and other edge computing locations. Power and data cables are separated from cooling lines, protecting them from moisture.

How many rack enclosures does the srp-4r-2c25 have?

The SRP-4R-2C25's four IT rack enclosures each house up to 44U of rack-mounted equipment on built-in rails. Dual cooling enclosures come with slim 25 kW in-row cooling units (SRCOOLDXRW25) to help prevent equipment malfunctions due to overheating or fluctuating temperatures.
