

# European type power cabinet with constant temperature and humidity

## Overview

---

This electric storage cabinet keeps temperature steady between 54–72°F and maintains ideal humidity levels for long-term preservation. Without proper storage, fluctuations in temperature and humidity can lead to deterioration.

Humidity supply with water (only for demineralised water with a conductivity of 5 to 10  $\mu\text{S}/\text{cm}$  and a pH value between 5 and 7) from 2 x 10 l tank on telescopic slide integrated in chamber, with automatic change-over. integrated timer for tempering profiles of up to 40 ramps each, each segment.

Continuous improvement in the design of constant-temperature (and humidity) cabinets now with remote monitoring and control via PC Ethernet connection and web browser. The line-up consists of six models, four temperature/humidity ranges and two size variations, 105-liters and 206-liters, to.

Improvement of ESPEC's evolving lineup of constant-temperature (and humidity) chambers with capabilities and reliability supports an expanded range of testing needs in laboratories and research facilities. Refined in operation ease and safety, as well as lower energy consumption and easier.

Our climate controlled storage cabinets deliver stable temperature and humidity, so rubber, polymer, and composite materials age slower, inspections pass more often, and field crews stay ready. Each climate control cabinet combines precise sensing, sealed construction, and configurable interiors to.

What is a constant climate chamber?

A constant climate chamber, also known as a climate cabinet or climate chamber, is a unit used to simulate certain environmental conditions (temperature and relative humidity). Environmental simulation testing in climate chambers provides an indication of how.

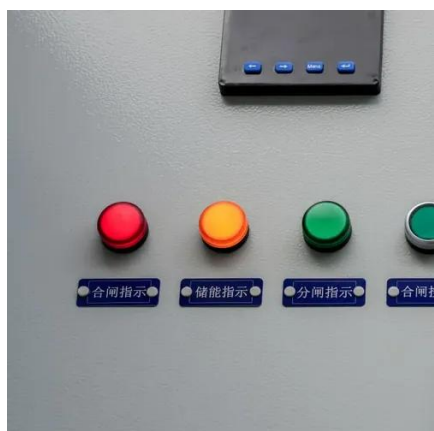

Reliable, high-performance support for a wide range of temperature/humidity

testing needs Improvement of ESPEC's evolving lineup of constant-temperature (and humidity) chambers with capabilities and reliability supports an expanded range of testing needs in laboratories and research facilities.
