

Free quote for 120kW French energy storage unit

Overview

Who is delivering a battery energy storage system in France?

China's Envision Energy has been selected by Kallista Energy to deliver a 120 MW/240 MWh battery energy storage system (BESS) in Saleux, northern France. The project represents Envision's first independent storage contract in the French market and signals its continued European expansion.

What is Envision Energy's first independent battery energy storage contract in France?

After previous triumphs in Europe, this project represents Envision Energy's first independent battery energy storage contract in France. Envision Energy will provide a minimum of a 14-year long-term maintenance (LTSA) agreement, starting construction in June 2025, ensuring ongoing presence in the area once the construction phase is complete.

Where will Envision Energy deliver a 120 mw/240 MWh battery energy storage system?

Envision Energy has signed its first independent energy storage contract in France, under which it will deliver a 120 MW/240 MWh turnkey project in Saleux for Kallista Energy. China's Envision Energy has been selected by Kallista Energy to deliver a 120 MW/240 MWh battery energy storage system (BESS) in Saleux, northern France.

Where is the LFP battery energy storage system located?

The lithium iron phosphate (LFP) battery energy storage system will be located in Saleux in the Hauts-de-France region, with construction starting this month. Envision Energy will supply 44 DC units and 22 AC units for the facility, which will provide frequency regulation services on the French transmission system operator RTE's reserve markets.
