

Household integrated solar lamp solar energy storage cabinet lithium battery

Overview

What is a home battery storage solution?

Home battery storage solutions provide homeowners with backup power, energy bill savings, or off-grid power capabilities. The PHI 3.8-M™ Battery utilizes safer Lithium Ion chemistry available, Lithium Ferro Phosphate (LFP). When combined with our integrated high-performance Battery Management System (BMS), accessible 100.

Why should you choose a home battery storage system?

Whether you are looking for home battery backup, solar battery storage or solar battery backup power for your home when the grid goes down, our energy storage systems provide reliable battery power for your home. Home battery storage solutions provide homeowners with backup power, energy bill savings, or off-grid power capabilities.

What is a fully integrated energy storage system?

This fully integrated energy storage system features a comprehensive all-in-one design, incorporating essential switches for battery fuses, photovoltaic input, utility grid, load output, and diesel generators.

What is a LiFePO4 home ESS?

Effortlessly combine power, reliability, and efficiency with the 5kW / 15kWh LiFePO4 Home ESS. Designed for modern residential, this all-in-one solution with battery and inverter ensures seamless energy management, reduces electricity costs, and provides peace of mind during power outages.
