

How much does 7000 watts of solar cost

Overview

In 2025, a 7 kW solar panel system costs around \$18,060 before incentives, based on real installation data from across the country. But your actual price will depend on factors like your roof's complexity, local labor costs, the equipment you choose, and what incentives are.

In 2025, a 7 kW solar panel system costs around \$18,060 before incentives, based on real installation data from across the country. But your actual price will depend on factors like your roof's complexity, local labor costs, the equipment you choose, and what incentives are.

A 7 kW solar panel system is enough to power a small home—but it'll cost you about \$18,060. Why trust EnergySage?

As subject matter experts, we provide only objective information. We design every article to provide you with deeply-researched, factual, useful information so that you can make.

Find the lowest price on your new 7000 watt solar panel system. Use this page to compare prices of 7KW generators on the most trusted names in solar: Amazon, Home Depot, Mr. Solar, and Solar Warehouse.

Solar panel installation costs a national average of \$18,180 for a 6kW solar panel system for a 1,500 square ft. home. The price per watt for solar panels can range from \$2.50 to \$3.50 and largely depends on the home's geographical area. Residential solar panels are usually sized between 3 kW and 8.

If you're looking to install solar panels on your roof, a 7-kilowatt (kW) solar energy system can be the right size to significantly reduce your electricity costs. Want to know the best way to ensure you're getting the right price for your solar panel installation and maximizing your long-term.

According to the US Energy Information Administration's (EIA) 2021 estimates, an average U.S. residential unit consumes 29.53kWh of electricity monthly. A 7kW solar array can produce 21 to 49 kWh of power in one day, so it can deliver what's needed to most homes, even those with higher-than-average.

Most homeowners spend between \$12,600 and \$33,376 to install a complete residential solar system in 2025, with the national average at \$19,873 before incentives. Your actual cost depends on your home's energy needs, roof characteristics, location and other factors, all of which we'll break down in.
