

# How to charge at new energy stations

## Overview

---

Discover available rebates and charging stations to help you make the switch. Switching to an electric vehicle has never been more affordable with available rebates. Get info on charging your car at home and how quickly the public charging network is growing.

Discover available rebates and charging stations to help you make the switch. Switching to an electric vehicle has never been more affordable with available rebates. Get info on charging your car at home and how quickly the public charging network is growing.

When you choose electric, both you and your vehicle can recharge at home. There are many at-home charging options that make it easier to own an electric vehicle, as well as thousands of public charging stations across New York State and chargers that may be available to you from your employer.

We're making it easier for New Yorkers without access to a home charger to charge their electric vehicle at the curb. We're partnering with the City of New York and FLO, one of North America's largest electric vehicle charging networks, to install over 100 electric vehicle charging ports across the.

CSE is statewide administrator of New York's electric vehicle (EV) charging incentive program, Charge Ready New York, that funds installations at publicly and privately accessible facilities. The program offers incentives of \$4,000 per port to public and private organizations to install Level 2 EV.

Discover available rebates and charging stations to help you make the switch. Switching to an electric vehicle has never been more affordable with available rebates. Get info on charging your car at home and how quickly the public charging network is growing. Learn about electric models to make all.

SmartCharge New York helps EV drivers like you get the most out of their ride: To participate in SmartCharge New York you will either need to have either an internet-connected vehicle or charging station. Please check our FAQs for a list of supported vehicles and internet-connected chargers. You.
