[Addis Ababa, Ethiopia, August 25, 2025] Ethiopia's leading operator, Ethio Telecom, in collaboration with Huawei, has announced the successful commercial deployment and stable operation of the first batch of Solar-on-Tower solution in Africa. This collaboration marks a new phase for Ethio Telecom.

This collaboration marks a new phase for Ethio Telecom in its push for a green, low-carbon transformation. It will advance clean energy applications, build a green network, and set a new technological benchmark for African telecommunications. Ethiopia's leading operator, Ethio Telecom, in.

Addis Ababa's pilot project shows that even in the heart of a capital city, where every square metre of land is contested, renewable energy can find a place—on the towers that already dot the skyline. For Africa, this could be a game-changer. According to GSMA (the global mobile operators'.

Ethio Telecom, in collaboration with Huawei, has announced the successful commercial deployment and stable operation of the first batch of Solar-on-Tower solutions in Africa. This collaboration marks a new phase for Ethio Telecom in its push for a green, low-carbon transformation. It will advance.

Africa's first Solar-on-Tower project in Addis Ababa was completed by Huawei and Ethio Telecom, enabling solar use, faster setup, and 40% diesel reduction. Link copied! Copy failed! Ethio Telecom's Solar-on-Tower project in Addis Ababa reduced diesel generator use by 40% per site after installation.

Ethiopia Today (Addis Ababa), August 29, 2025: Chinese telecom vendor Huawei has partnered with Ethio Telecom to deploy solar panels at some of Ethio's tower sites. The company confirmed it had completed the deployment of the first batch

of its solar-on-tower products. According to Huawei, it's the.
