The cabinet aircon is a temperature control solution for cooling or heating on a sealed cabinet. It has DC-48V DC input and 220V AC input. The main installation method is to install on the cabinet door. The compressor and R143a refrigerant are used to produce cold air to reduce the temperature in.

KDST's power system cabinets offer flexible internal configurations to

accommodate various electrical components, including inverters, DC combiner boxes, disconnect switches, sekering, DC power supply modules, Battery Management Systems (BMS), remote monitoring modules, and communication modules. What is a power cabinet aircon?

Compared with outdoor cabinet aircon, power cabinet aircon use more efficient and energy-saving fans and compressors, which can effectively extend the service life of the air conditioner and reduce power consumption. And the air conditioner also has a humidity signal output, which can better protect the equipment in the cabinet.

What is embedded communication power supply system (rectifier system)?

The embedded communication power supply system (Rectifier System) is suitable for small program-controlled switches, access networks, transmission equipment, mobile communications, satellite communications ground stations, microwave communications power supply, and can also be used for power supply for other communications equipment.

Why is AC panel air conditioning used in communication cabinets?

AC panel air conditioning usually used in communication cabinets. It can operate for a long time in harsh environments. So it can ensure the normal operation of communication equipment in high temperature weather. The cabinet air conditioning has excellent quality and a low probability of failure. It can reduce subsequent maintenance costs.

Indonesia Communication Power Supply Cabinet AC Price Inquiry

50KW modular power converter

Flexible Configuration

- Modular Design, Expanding as Required
- Small/Light, Wall Mounted
- Installed in Parallel for Expansion

Powerful Function

- Support PV/ESS
- Grid Support, Equipped with SVG Technology
- On-Grid and Off-Grid Operation

Reliable Protection

- Outdoor IP55 Design
- Sufficient Protection Functions Equipped
