Eir Solus develops stand-alone battery storage systems as well as hybrid energy systems that link battery storage with wind and/or solar plants. Batteries are an important building block of the energy transition, as they stabilise electricity grids and enable a faster expansion of renewable.

Alpha ESS is the leading global green energy storage solution for putting the power back in your system and control back in your hands. Energy storage goes hand in hand with solar PV panels, allowing owners to run their homes and businesses on low-cost, sustainable energy by storing excess solar.

As Ireland's energy landscape evolves, homeowners are seeking solar solutions that offer more than just electricity savings. Today's solar systems need to be smart, safe, and built to perform in all weather conditions. Enter Sigenergy's SigenStor an all-in-one energy storage and management system.

As Ireland's renewable energy landscape evolves, energy storage solutions have become the missing link in maximizing the potential of solar power systems. Modern battery technology now enables Irish homeowners to capture and store excess solar energy during sunny periods, providing reliable power.
