

Large-scale energy storage project in new york usa

Overview

NYCIDA closed its largest battery energy storage project to date, the East River Energy Storage Project, located on an industrial site on the East River in Astoria, Queens. When built, the facility will be able to hold up to 100 megawatts (MW) and power over tens of thousands of.

NYCIDA closed its largest battery energy storage project to date, the East River Energy Storage Project, located on an industrial site on the East River in Astoria, Queens. When built, the facility will be able to hold up to 100 megawatts (MW) and power over tens of thousands of.

IRVINE, CA., November 25, 2025 – Clean Energy Technologies, Inc. (Nasdaq: CETY) (“CETY” or the “Company”), a clean energy technology company delivering scalable solutions in power generation, storage, waste-to-energy, and heat-to-power, today announced that it has secured a \$10 million Battery.

QUEENS, NY —Today, New York City Economic Development Corporation (NYCEDC) and the New York City Industrial Development Agency (NYCIDA) announced the advancement of a key commitment in New York City’s Green Economy Action Plan to develop a clean and renewable energy system. NYCIDA closed its.

Energy storage is a smart and reliable technology that helps modernize New York’s electric grid, helping to make the grid more flexible, efficient, and resilient. With thousands of energy storage sites already in place across the State, this exciting technology is playing an important role in.

Elevate Renewables has announced a 15 MW/60 MWh distribution-level battery energy storage project at the Arthur Kill Generating Station in Staten Island, New York (courtesy: Elevate Renewables) ArcLight Capital Partners and Elevate Renewables, a battery storage developer, have announced a milestone.

The 15 MW/60 MWh distribution-level project will help provide more renewable power by replacing existing generation planned to retire in 2025. Elevate is a wholly owned subsidiary of a fund managed by ArcLight. Once completed, the project will be the largest battery storage installation in New York.

This award represents the Company’s largest storage project to date and marks

the first of several similar, either front of the meter or behind the meter, BESS deployments across New York State CETY expects to finalize in the months ahead. The New York project includes the deployment of a 5MW /.

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled
