

Latin American Data Center Rack 5MWh

Overview

How big is the Latin America data center market?

The Latin America Data Center Market size was valued at USD 3.28 billion in 2023, and is predicted to reach USD 6.42 billion by 2030, at a CAGR of 10.1% from 2024 to 2030.

What is Latin America's data center demand?

Latin America's data center demand continues to rise, with net absorption reaching 73.3 MW in Q1 2024. São Paulo, the region's leading market, absorbed 40.4 MW this year. Hyperscalers are expanding their regional presence, seeking reliable data center infrastructure for their growing needs.

Why did Latin America's data center availability increase in 2024?

Latin America's data center availability modestly increased in 2024, largely due to more space in São Paulo, the region's largest market. São Paulo's availability increased to 62.1 MW from 52.3 MW in Q1 2024. However, this growth remains slight, indicating that demand still exceeds new supply in many Latin American markets.
