

Latvia s new largest energy storage power station

Overview

The Tārgale Wind Park, initially launched in 2022 with an annual generation capacity of 155 GWh, has recently integrated a utility-scale energy storage system to enhance grid stability.

The Tārgale Wind Park, initially launched in 2022 with an annual generation capacity of 155 GWh, has recently integrated a utility-scale energy storage system to enhance grid stability.

Tārgale, Latvia — On November 1, 2024, Tārgale Wind Park held its grand opening, unveiling Latvia's first major energy storage facility. Hoymiles, as a key technology supplier, played a pivotal role in the project. Managed by Utilitas, Latvia's largest wind energy producer, this project combines.

Hoymiles has announced the completion of Latvia's first major energy storage facility, in which it has played a pivotal role. The Tārgale wind park, managed by Utilitas, the country's largest wind energy producer, combines wind energy generation with advanced storage capabilities, setting a new.

On November 1 Latvia's largest wind energy producer Utilitas Wind opened the first utility-scale battery energy storage battery system in Latvia with a total power of 10 MW and capacity of 20 MWh in Targale, Ventspils region. This autumn, the Battery Energy Storage System (BESS) will be connected.

Ventspils /PRNewswire/ - On November 1, 2024, Tārgale Wind Park held its grand opening, unveiling Latvia's first major energy storage facility. Hoymiles, as a key technology supplier, played a pivotal role in the project. Managed by Utilitas, Latvia's largest wind energy producer, this project.

RIGA, Nov. 1 (Xinhua) -- Renewable energy company Utilitas Wind on Friday inaugurated the largest battery energy storage system (BESS) in Latvia to date, local media reported. Installed at the Targale wind farm in Latvia's western municipality of Ventspils, the system can store up to 20 MWh and.

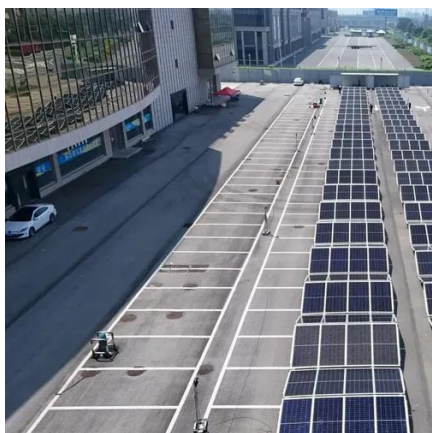

Latvia has taken a significant step towards a greener future with the commissioning of its first utility-scale battery energy storage system (BESS). The 10MW/20MWh BESS, located in Targale, Ventspils region, is integrated with the

58.8MW Targale Wind Park. Developed by Utilitas Wind, a subsidiary.
