

# Macedonia large energy storage power plant

## Overview

---

The 2.6 MW BESS projects are just the start of battery storage in the country with YESS Power, a Turkey-based contractor, planning to commission a 60 MW BESS project in North Macedonia at the end of November 2025. It will be the first large facility of its kind in the Western.

The 2.6 MW BESS projects are just the start of battery storage in the country with YESS Power, a Turkey-based contractor, planning to commission a 60 MW BESS project in North Macedonia at the end of November 2025. It will be the first large facility of its kind in the Western.

Battery licensing begins as 60 MW milestone nears, and 4 GW of storage proposals await review. North Macedonia has issued its first two licenses for battery energy storage system (BESS) projects, with a combined capacity of 2.6 MW. These licenses were issued by the Energy Regulatory Commission.

YESS Power said that in November it plans to commission a 60 MW battery energy storage system (BESS) in North Macedonia. The Turkey-based contractor is installing the facility for Mey Energy at the site of the client's solar power plant in Novaci. It would be the first large BESS and hybrid power.

A city where sudden power outages become as rare as unicorn sightings, and solar panels work overtime even after sunset. That's the promise of the Skopje Energy Storage Project - North Macedonia's answer to the \$33 billion global energy storage industry [1]. Designed for tech-savvy policymakers and.

Operational since Q2 2024, this €1.2 billion marvel can power 800,000 homes for 8 hours straight while stabilizing the Balkan grid. But here's the kicker - it's achieving 82% round-trip efficiency, outperforming even the Swiss Nant de Drance facility's 80% benchmark [8]. North Macedonia's solar.

Turkish company Fortis Energy has announced plans to integrate battery storage capacity at the Oslomej solar power plant, making it the second-largest hybrid power facility in the Western Balkans. Fortis Energy developed North Macedonia's largest solar power plant in 2023, with electricity.

The Oslomej solar park, operated by Fortis Energy, is getting a battery system of

62 MW in capability. The Turkey-based company hired Pomega for the investment. It would make the second-largest photovoltaic unit in the Western Balkans a hybrid power plant. Energy Storage Figure I.2: Energy.

## Macedonia large energy storage power plant

### [List of energy storage power plants](#)

This is a list of energy storage power plants worldwide, other than pumped hydro storage. Many individual energy storage plants augment electrical grids by capturing excess electrical energy ...
