

# Middle east windmill energy storage project

## Overview

---

ACWA Power will deploy wind energy and battery storage to help power the Middle East and Africa region's 'first battery gigafactory.'

ACWA Power will deploy wind energy and battery storage to help power the Middle East and Africa region's 'first battery gigafactory.'

Each project is a testament to the region's determination to lead the global transition to sustainable energy while highlighting the urgent need for skilled professionals to build and operate these initiatives. This project, a collaboration between Masdar, EWEC, and a consortium of EPC contractors.

As September 2025 draws to a close, the Middle East's renewable energy storage sector is charging ahead with groundbreaking announcements, financial closes, and operational milestones that underscore the region's pivotal role in the global #EnergyTransition. With ambitious targets like Saudi.

ACWA Power has agreed to deploy wind energy and battery capacity to help power what is claimed will be the Middle East and Africa region's 'first battery gigafactory.' The Saudi Arabian power producer and developer has signed a joint development agreement with Gotion Power, Chinese battery.

Renewable installed energy capacity<sup>8</sup> Renewable forecast to 2030<sup>10</sup> Current pipeline of projects<sup>10</sup> Targets and ambitions<sup>10</sup> Data centers competing for demand<sup>12</sup> Scenarios to 2030<sup>12</sup> Hydrogen developments in the MENA region<sup>13</sup> Electrolyzer capacity planned<sup>14</sup> Green hydrogen ambitions to 2030<sup>14</sup> Renewable.

This milestone follows the completion of the 150 MW expansion, four months ahead of the initial schedule, which brings the total capacity of the wind farm from 500 MW to 650 MW. The project has undergone several intermediate commissioning phases: 306 MW in December 2024, 194 MW in April 2025, and.

In a region of the world renowned for its vast and substantial oil and gas reserves, several nations in the Middle East are shifting their energy sectors towards hybrid wind-solar-storage mega projects. This new narrative is being championed by the UAE and Oman, which have both seen plans for.

## Middle east windmill energy storage project

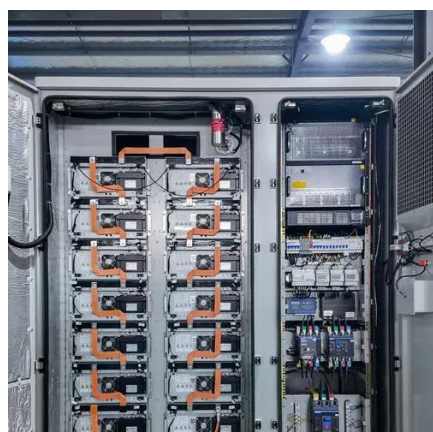

### [Storage Projects in MENA Region , Synergy Consulting](#)

The Middle East's largest solar-plus storage project, Philadelphia Solar, reached financial close on a 12MWh lithium-ion battery based energy storage project in Jordan in 2018.

### [Largest Wind Farm In Middle East And Africa Enters Operation](#)

ENGIE announced the full commissioning of the Red Sea Wind Energy wind farm, located in Ras Ghareb, Egypt. This is the largest operational wind farm in the Middle East and ...
