

# Modular Battery Cabinet 2MWh Warranty Period

## Overview

---

FranklinWH warrants that your Products will be free from defects for twelve (12) years starting from 1) the date of the initial installation; or 2) twelve (12) months from the manufacture date, whichever comes first. FranklinWH will offer remedies according to the Remedies section.

FranklinWH warrants that your Products will be free from defects for twelve (12) years starting from 1) the date of the initial installation; or 2) twelve (12) months from the manufacture date, whichever comes first. FranklinWH will offer remedies according to the Remedies section.

Performance warranty defined for the ESS: 100% DOD, 60% capacity at EOL, operating temperature range of  $-30^{\circ}\text{C}\sim+30^{\circ}\text{C}$ , The number of cycles is defined according to the working conditions of each area. For details, see Table 2-1. The performance warranty of the battery module is based on the ten-year.

The island microgrid is powered by a 355 kW photovoltaic (PV) array, which powers all appliances and systems on the island during the day, switching off at. Nuvation Energy provides battery management systems (BMS) and energy storage engineering solutions to battery manufacturers and system.

Supplier highlights: This supplier is both a manufacturer and trader, offering overseas warehouse and quality control services, with capabilities for full customization and design customization. Customer satisfaction stands at 95.7%. Customized logo (Min. order: 5 pieces) Customized packaging (Min.

Polinovel utility scale energy storage battery system incorporates top-grade LiFePO<sub>4</sub> battery cells with long life, good consistency and superior charging and discharging performance. Moreover, with efficient thermal management design and fire protection system, it ensures reliable performance and.

A warranty period is a predefined duration during which the manufacturer guarantees to repair or replace a product if it fails to perform as intended due to defects in materials or workmanship. It serves as a safety net for customers, offering peace of mind and protection against unforeseen issues.

FranklinWH warrants that your Products will be free from defects for twelve (12)

years starting from 1) the date of the initial installation; or 2) twelve (12) months from the manufacture date, whichever comes first. FranklinWH will offer remedies according to the Remedies section. FranklinWH. What is the warranty of the energy storage 2 MWh system?

the product warranty of the industrial and commercial energy storage 2 MWh system is classified into basic warranty and advanced warranty. After the device is delivered, the basic warranty is automatically obtained. If the device is connected to Huawei PV cloud or purchased from Huawei for five years, the warranty is upgraded to advanced warranty.

How long is the warranty on a battery module?

For details, see Table 2-1. The performance warranty of the battery module is based on the ten-year warranty period and the number of cycles. The one that reaches the warranty first takes effect, and the warranty expires.

What is the difference between battery warranty and energy storage warranty?

The performance warranty of the battery module is based on the ten-year warranty period and the number of cycles. The one that reaches the warranty first takes effect, and the warranty expires. Energy storage warranty includes product warranty and performance warranty, which are provided separately.

What is the performance warranty for the ESS battery module?

Performance warranty defined for the ESS: 100% DOD, 60% capacity at EOL, operating temperature range of  $-30^{\circ}\text{C}\sim+30^{\circ}\text{C}$ , The number of cycles is defined according to the working conditions of each area. For details, see Table 2-1. The performance warranty of the battery module is based on the ten-year warranty period and the number of cycles.
