Our outdoor energy storage cabinet is an intelligent integrated management system that provides reliable and efficient energy storage for outdoor applications. With its scalable capabilities, RAJA's battery system can meet project requirements of varying scale and is suitable for various.

High Compatibility: 100% three-phase unbalanced output, up to 110% AC overload, and compatibility with multiple battery brands. High Reliability: AI-powered AFCI protection (optional), <4 ms UPS-level switching, and SPD-II protection on both DC and AC sides. Good Economy: Equipped with >20% power.

The Huijue Indoor Photovoltaic Energy Cabinet is a complete high-performance indoor energy storage solution for telecommunication, business, and industry. Through the combination of advanced LiFePO₄ batteries with smart battery management and compact design, it offers safe, reliable, and scalable.
