

Mozambique solar energy storage enterprise

Overview

When did Globeleq & Mozambique launch a solar power plant?

Our solar power plant in Cuamba was inaugurated in September of 2023. It marked another milestone for Globeleq and Mozambique, as it was the first IPP to integrate a utility-scale energy storage system.

Why is Mozambique acquiring 25-30 MW of solar PV?

The procurement of 25-30 MW of solar PV is the first stage of implementation of the program which will contribute to the diversification of Mozambique's power mix and improve power supply quality, whilst ensuring low-cost energy for Mozambican end users.

Who is building a solar power plant in Mozambique?

The Spanish group TSK has won the contract to build the Cuamba solar power plant in the Niassa province of Mozambique.

Is battery storage a key technology for Mozambique's future?

Globeleq sees battery storage as a key technology for Mozambique's future. Storage costs are expected to continue decreasing, so those systems will become more competitive and will be able to contribute more.
