

New energy storage major implementation plan

Overview

The 2024 Energy Storage Order established a statewide goal of deploying 3,000 MW of new bulk energy storage by 2030 and required that NYSERDA submit a draft Implementation Plan that outlines the methods and budget that could be used to achieve the bulk energy storage deployment.

The 2024 Energy Storage Order established a statewide goal of deploying 3,000 MW of new bulk energy storage by 2030 and required that NYSERDA submit a draft Implementation Plan that outlines the methods and budget that could be used to achieve the bulk energy storage deployment.

ALBANY — The New York State Public Service Commission (Commission) today approved the retail and residential energy storage program Implementation Plan, filed by the New York State Energy Research and Development Authority (NYSERDA). In its decision, the Commission directed NYSERDA to modify the.

Efforts towards a finalized implementation plan have been ongoing since June 2024, when Governor Hochul first announced that the PSC had approved an Energy Storage Roadmap in furtherance of the state's goal to achieve six gigawatts ("GWs") of energy storage by 2030. The PSC's subsequent 2024 Energy.

This document sets forth for public review and consideration by the New York Public Service Commission (the "Commission") a proposed Implementation Plan for a new Bulk Energy Storage (BES) Program to be administered by the New York State Energy Research and Development Authority (NYSERDA), as.
