With the ability to accommodate multiple battery formats and chemistries — from cylindrical to pouch to prismatic cells — Battery-NY comes as both a critical and novel facility to fill gaps in U.S. manufacturing and innovation. Companies can save time and money by de-risking their prototypes.

New Energy New York (NENY) and the New York Battery and Energy Storage Technology Consortium (NY-BEST) are pleased to announce a new Request for Proposals (RFP) for Battery Data Management and Analytics Solutions for the NENY Supply Chain Program, supported by the U.S. Economic Development.

New York state is America's destination for advancing the research, technology, manufacturing and workforce for batteries that power everyday lives and beyond. Startup support in technology development and commercialization. Derisking, testing and certification for batteries destined for.

We are leading a once-in-a-generation opportunity to connect our region's strengths in innovation to create a sustainable economy in upstate New York. The federal government has already flagged our locale as an industry growth cluster for economically impactful battery and energy storage, through.

NENY's programs connect the nodes of battery prototyping, research and development, technology innovation, workforce development, environmental justice, and supply chain. The Battery Tech Hub has an expanded partner network and region of service in upstate New York. Connecting these partners and.
