

Portable Data Center Battery Cabinet in Saudi Arabia

Overview

Which data centers are carrier-neutral in Saudi Arabia?

Offering a flexible pack of services that includes shared or dedicated racks, caged racks and dedicated purpose-built rooms. Our triple-tier data center is the first carrier-neutral data center in Saudi Arabia. Located north of Riyadh, this 4,500 m² data center hosts thousands of public & private sector clients and has the capacity of 450 racks.

Which data center operators are in the Saudi Arabia data center market?

The Saudi Arabia data center market has the presence of several major data center operators, such as center3, Gulf Data Hub, Mobily, Edgnex Data Centres by DAMAC, Quantum Switch Tamasuk (QST), and others, establishing their facilities with further plans to invest.

What is a typical battery cabinet?

A typical cabinet integrates batteries, racking and chargers into an indoor (NEMA 1 or IP21) or outdoor (NEMA 3R or IP54) rated enclosure. There are many different options and accessories available, making every system unique and built to your site-specific needs.
