We tested 22 portable power stations for over a year to find the best models for home backup, camping, road trips, and emergency power.

Portable power stations can deliver power when you need it most, whether during power outages or just for an off-grid adventure. These handy electricity suppliers vary in size, output, and energy source, not to mention durability. That's why we've tested 22 models since 2022; some we've kept on.

Made with chemicals safer for human health and the environment. Manufactured on farms or in facilities that protect the rights and/or health of workers. ECOLOGO certified products are made with materials that reduce environmental impact at one or more stages of their life cycle, from raw materials.
