From concept and design to fabrication and assembly, Bull Metal Products manufactures custom battery enclosures, lithium battery boxes, and battery cabinets with the highest quality and safety standards. Our capabilities include: laser cutting, CNC forming, precision welding, powder coating, screen.

As global demand for energy storage surges by 23% annually (BloombergNEF 2023), the battery cabinet manufacturing process faces unprecedented challenges. Did you know that 40% of production delays originate from thermal management failures during assembly?

This critical juncture in clean energy.

Lithium-ion batteries are the driving force behind today's portable power revolution—powering everything from electric vehicles to industrial equipment, tools, and communication systems. As their use expands across sectors, so do the

risks associated with improper handling, charging, and storage.

Battery storage enclosures protect technology such as lithium-ion (Li-ion) batteries. Our capabilities allow us to manufacture, paint, assemble and ship large-scale battery storage enclosures from our six manufacturing locations. Protection that delivers. We're here to protect your battery storage.

Fabricated Metals manufactures indoor and outdoor industrial enclosures to meet the needs of the Battery + Energy Storage industries. With the increasing importance for renewable energy sources, and the inherent need for backup battery power for some industries, you need storage for the energy and.
