Vietnam's latest retail electricity pricing framework introduces an average rate ranging from VND 1,826.22 to VND 2,444.09 per kilowatt-hour (roughly up to USD 0.10 per kWh). The new cap provides more structure and transparency for households and businesses while ensuring the energy market can.

The Ministry of Industry and Transport is the government body in charge of managing Vietnam's electricity market and supply. It does this through the wholly state-owned power company Electricity Vietnam commonly known as EVN. EVN generates some power, but also buys power from wholesalers, and sells.

The decision, signed on March 31, sets the maximum retail electricity price at 2,444.09 VND per kWh (0,095 USD), while the minimum price is set at 1,826.22 VND per kWh. Workers check equipment at the 220 kV Xuan Mai substation. (Photo: VNA/VNS) Vietnam has officially established the new framework.

The residential electricity price in Vietnam is VND 2,050.000 per kWh or USD 0.078. The electricity price for businesses is VND 2,088.900 kWh or USD 0.080. These retail prices were collected in June 2025 and include the cost of power, distribution and transmission, and all taxes and fees. Compare.

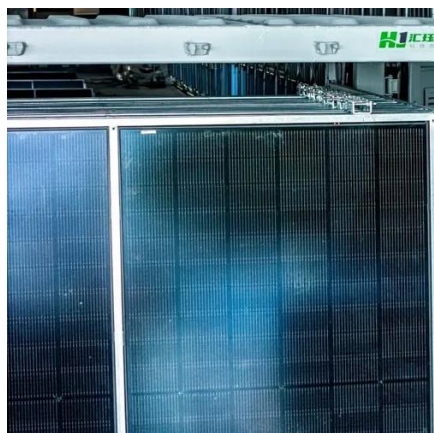

Vietnam's Ministry of Industry and Trade issued a decision last week implementing new retail electricity prices for various consumer groups and electricity retailers. The average retail price of electricity has been set at VND 2,103.1159 per kWh,

excluding value-added tax (VAT). This price.
