In modern communication base stations, battery cabinets play a crucial role as the key equipment to ensure uninterrupted operation of communication networks. And lithium batteries, especially the standardized 19-inch lithium batteries, have become the core battery solution in communication battery.

A 19-inch rack battery cabinet is a standardized enclosure designed to house backup power systems in server rooms, data centers, telecom installations, and industrial environments. These cabinets are engineered to fit seamlessly into 19-inch equipment racks—ensuring efficient space utilization.

AZE's 18U floor standing network rack cabinet provides secure storage space for storing EIA-310 compliant 19" rack-mount devices such as servers, switches as well as telecommunication equipment. The network cabinet provides an economical yet robust solution for installers or customers who require.
