One of the most common questions we receive is: How much does a 50kW solar system cost?

The cost of a 50kW solar system in Australia varies based on the type of system, brand of solar panels and inverters, and installation requirements. On average: For a detailed quote on a 50kW solar system in.

If you're thorough for an inexpensive price on a 50KW solar system, let's talk. With a 30 Day Price Beat Guarantee, we propose Australia's lowest-priced commercial solar systems, without compromising quality. Why a 50kW System is a Game-

Changer for Your Business?

A 50kW solar system is a. How much does a 50kw Solar System cost in Australia?

For a more exact figure, contact our specialists for a free quote. For commercial 50kW solar systems in Australia you will be looking at starting prices of \$45,000 to \$50,000 after rebate, excluding GST. For higher quality components from top tier manufacturers with highly efficient inverters the prices will start from \$55,000.

How much does a 50kw Solar System cost?

On average, a 50kW solar system will cost around \$49,068, including government rebates and other incentives. The true range depends on your location and the brand of solar panels and inverter you go with. The installation cost is usually included in this price range, as a certified installer can only do it. What's the payback period on 50kW solar?

Is a 50kw solar power system right for your business?

If you're running a large warehouse, an office complex, or something else entirely a 50KW solar power system is big enough to meet the demands of most medium-large commercial operations across Australia. We have access to the most advanced Tier 1 solar technology in the business, offering high conversion efficiency and minimal maintenance costs.

Can a 50kw Solar System be sold back?

Once you have your 50kW solar system installed, you can quickly reduce its payback period through the feed-in tariff program. Under this program, select energy companies around the country pay solar owners to sell back the excess energy they produce from your solar system. The program favors residential and SME solar installations.
