

Romania pv module project

Overview

Does Romania have a solar PV project in 2023?

Overview of solar PV developments Following a period of lull, Romania has achieved in 2023 a significant milestone in its renewable energy journey – over 1 GW of new solar capacity installed in one year between distributed generation and utility scale projects.

What is the monitor of Romanian photovoltaic projects?

The Monitor of Romanian Photovoltaic Projects is a tool offering thorough summaries of large- scale PV projects happening all over the country. However, there are some issues that need to be carefully thought through because they could have an effect on many diferent groups of people.

How many PV projects are there in Romania?

There are five counties with more than 50 PV projects in our data set - Dolj, Olt, Giurgiu, Prahova, Bihor, and 9 counties with less the 5 PV projects. There is only one in Neamț and Suceava, two in Vaslui and Vâlcea, respectively. Regional distribution of these projects reveals a concentration in the southern and western areas of the country.

What drives the growth in the Romanian PV sector?

While this annual figure represents a significant quantitative leap relative to the capacity deployed in past years, which averaged 1 MW, the main driver of the impressive developments in the Romanian PV sector is the distributed generation segment.

Romania pv module project

[Romania: Longi and Solarpro cooperate on 174 MW solar park](#)

Longi will supply PV modules for a 174 megawatt solar park that will be built by the Bulgarian based ECP contractor Solarpro. It is currently the largest of all existing or under ...

[LONGi and Solarpro cooperate on Romania's largest PV plant](#)

The project, scheduled to go online in mid-2025, will deploy over 285,000 LONGi modules for a total capacity of 174MW and will be the country's largest solar project, ...

[The evolution of Romania's Solar PV market](#)

With an average of 1,900 to 2,400 annual sunlight hours, Romania has significant natural potential for solar PV development. Yet, the country has not set ambitious targets for renewable energy ...

[Navigating Romania's PV boom](#)

A latecomer to the European PV party, Romania's embrace of clean energy means it is perfectly placed to ride the wave of urgently ...

[Longi supplies 576 MW of photovoltaic modules to Nofar Energy Romania](#)

The Chinese photovoltaic manufacturer Longi has concluded a contract with the PV project developer Nofar Energy Romania for the delivery of PV modules with a total output ...

[10.3MW PV Projects Breaks Ground in Romania](#)

Recently, construction commenced on a large-scale 10.3MW photovoltaic power plant located in Iratoșu, Arad County, Romania. The project will exclusively utilize high-efficiency 72-cells N ...

Parau solar farm

Parau solar farm is an operating solar photovoltaic (PV) farm in Brasov, Romania.

[LONGi Supplies 300MW Modules to Enexus for Romania's PV ...](#)

Bucharest, Sep 16th, LONGi, a leading Chinese photovoltaic (PV) technology enterprise, will supply 300MW of solar modules for multiple PV projects in Romania. These ...

[The New 71 MW Solar Project in Romania Under INVL ...](#)

INVL Renewable Energy Fund I, managed by INVL Asset Management, is developing a new 71 MW solar photovoltaic project in Romania in a bid to expand its ...

[Romania solar PV: Impressive 2.5 GW Install in 2025](#)

Romania's solar PV capacity is experiencing a remarkable surge, with installations expected to add a massive 2.5 GW in 2025 alone. This dynamic growth cements the country's ...

[LONGi and Solarpro cooperate on Romania's ...](#)

The project, scheduled to go online in mid-2025, will deploy over 285,000 LONGi modules for a total capacity of 174MW and will be ...

[10.3MW PV Projects Breaks Ground in Romania](#)

Recently, construction commenced on a large-scale 10.3MW photovoltaic power plant located in Iratosu, Arad County, Romania. The project will exclusively utilize high ...

[LONGi to supply solar panels for 174-MW project ...](#)

Chinese solar panel manufacturer LONGi Green Energy Technology Co Ltd (SHA:601012) has signed an agreement to supply ...

[Monitor of the Romanian Photovoltaic Projects](#)

Romania has set ambitious targets for developing renewable energy sources, including solar power. This article provides a comprehensive overview of ...

[Monitor of the Romanian Photovoltaic Projects](#)

Thus, by 2023, in terms of investments in new renewable generation capacity through photovoltaic projects, the prosumer area has become one of the most dynamic areas in the ...

[The Current State of Large-Scale PV Projects in Romania: A](#)

This article provides a comprehensive overview of the current state of large-scale PV projects in Romania, covering project details, readiness levels, key players, and the overall impact on the ...

[OMV Petrom Awards Contract for 89 MW Isalnita ...](#)

OMV Petrom has awarded the EPCC contract for its first large-scale solar project in Isalnita, Romania. Learn how the 89 MWp ...

**2MW / 5MWh
Customizable**

[LONGi Solar Connects 54.1 MW Solar Park to Grid ...](#)

Discover a major solar accomplishment in Romania: a 54.1 MW park powered by LONGi's high-efficiency Hi-MO 5 modules, now ...

[Romanian oil and gas company OMV Petrom buys 710MW domestic PV ...](#)

Romanian oil and gas producer OMV Petrom has bought a 710MW solar PV portfolio in its home country, which it said will be one of Southeastern Europe's 'most ...

[AE Solar to build 10GW module manufacturing facility in Romania](#)

German manufacturer AE Solar has planned to build a module manufacturing plant with a 10GW annual capacity in Romania.

[Romania's 1.5 GW PV Module Factory Secures Significant ...](#)

[Romania's 1.5GW PV Module Factory Secures Significant National Aid Funding] According to Polaris Solar PV Network, it has been reported recently that the Romanian ...

[10.3MW PV Projects Breaks Ground in Romania](#)

Recently, construction commenced on a large-scale 10.3MW photovoltaic power plant located in Iratosu, Arad County, Romania. The project will exclusively utilize high ...

[Romania solar PV: Impressive 2.5 GW Install in 2025](#)

According to the latest report from SolarPower Europe, Romania has not only maintained its growth trajectory but has accelerated it, entering the top 10 fastest-growing ...

[LONGi to supply solar panels for 174-MW project in Romania](#)

Chinese solar panel manufacturer LONGi Green Energy Technology Co Ltd (SHA:601012) has signed an agreement to supply over 285,000 modules for a 174-MW solar ...

[LONGi and Solarpro cooperate on largest ...](#)

Solar module manufacturer LONGi has signed on to supply a new Romanian photovoltaic plant being built by Solarpro - a leading ...

[Romania: Longi and Solarpro cooperate on 174 ...](#)

Longi will supply PV modules for a 174 megawatt solar park that will be built by the Bulgarian based ECP contractor Solarpro. It is ...

[Monitor of the Romanian Photovoltaic Projects](#)

This article provides a comprehensive overview of the current state of large-scale PV projects in Romania, covering project details, readiness levels, key players, and the overall impact on the ...

[LONGi and Solarpro cooperate on largest Romanian PV plant to ...](#)

Solar module manufacturer LONGi has signed on to supply a new Romanian photovoltaic plant being built by Solarpro - a leading European O& M and EPC contractor of ...

[LONGi Supplies 300MW Modules to Enexus for Romania's PV Project](#)

Bucharest, Sep 16th, LONGi, a leading Chinese photovoltaic (PV) technology enterprise, will supply 300MW of solar modules for multiple PV projects in Romania. These ...

[Solar Module Production in Romania: The ...](#)

Discover the untapped market for climate-resilient DESERT+ solar modules in the Balkans. Learn why Romania is the ideal location for ...
