

Romania s largest energy storage project settled

Overview

On December 12, 2025, Romania inaugurated its largest energy storage facility, a 200 MW battery system with a capacity of 400 MWh, developed by Nova Power & Gas.

On December 12, 2025, Romania inaugurated its largest energy storage facility, a 200 MW battery system with a capacity of 400 MWh, developed by Nova Power & Gas.

Bucharest, July 22, 2025 – Nova Power & Gas, a Romanian energy company and part of the E-INFRA Group, announces the launch of the largest battery energy storage project in Romania. The installation, which will be built in Florești, Cluj County, will have a capacity of 200 MW / 400 MWh and is.

Amid a battery investment frenzy in Romania, Nova Power & Gas is about to build a battery energy storage system that would double the current total capacity in the country. In addition, the company is beginning the construction of a 150 MW gas power plant. Nova Power & Gas claims it is currently.

Nova Power & Gas's 400 MWh project in Cluj County is the largest battery energy storage system (BESS) to date to have been connected to Romania's grid. The largest battery energy storage system (BESS) to date in Romania, with a capacity of 200 MW/400 MWh, has been commissioned in Cluj County by the.

Nova Power & Gas, a subsidiary of the E-INFRA Group, has officially commissioned Romania's largest battery energy storage system (BESS), a 200 MW facility with 400 MWh of storage capacity in Florești, Cluj County. The Florești BESS complements Nova Power & Gas's simultaneous announcement of a 160.

A Romanian energy firm, Nova Power & Gas, which is also one of the firms of the E-INFRA conglomerate, announces the beginning of the biggest battery storage project in Romania. The project that will be constructed in Florești, Cluj County, will provide 200 MW/400 MWh, the working capacity of which.

The largest battery energy storage capacity in Romania – 200 MW power and 400 MWh capacity – has been put into operation, announced Energy Minister Bogdan Ivan. "Today, the largest battery energy storage capacity in Romania was

operationalized: 200 MW power and 400 MWh storage capacity. In short:.
